FAQs

Q: How do I get started?

A: Send your logo artwork directly to Arctic Chiller. We can design your label for you and can even send you a mock-up bottle before you place your order.

Q: What is my up-front cost?

A: Your only investment is the cost of your custom labels. Label cost varies by the quantity, number of colors in your artwork, and stock material you would like your label printed on (Labelyte, Chrome, Clear, Biodegradable). Case water is ordered as needed throughout the year.

Q: How much is it for each case of water after I buy labels?

A: Arctic Chiller or your Sysco MA (if applicable) will provide your landed case cost.

Q: How long will my first order take?

A: Allow 3 weeks for your first order, since labels have to be designed, proofed, and printed. After that, each water order is ready within 5 business days.

Q: What kind of art files do you need for my logo?

A: We require vector art files, in .EPS, .PDF, or .AI file format. If you don't have access to these files, notify Arctic Chiller directly for a solution. Our art department will be happy to assist you.

Q: Is there a price difference for going with a sport cap or with a biodegradable bottle?

A: Yes, we offer a number of different

options to suit your style. Arctic Chiller or your Sysco MA (if applicable) will provide you with pricing.

Q: Do prices include bottle deposits and eco-fees?

A: No, case prices do not include deposit or enviro-levies, which are subject to periodic change by governing agencies.

Q: How long will you hold my labels in inventory for? Is there any time limit?

A: We don't hold you to a time limit, but we encourage you to look at a 1-2 year supply. This ensures you get the best pricing and we also find that some companies tend to update their logo every few years.

Q: How do I order?

A: Place your order through Arctic Chiller or your Sysco MA.
